GUIDELINES FOR GRANT APPLICATIONS

TERMS OF REFERENCE

1.1 BACKGROUND

The Caribbean Policy Development Centre is a legally registered non-profit headquartered in Barbados and established in 1991. CPDC serves as a regional umbrella NGO for organisations comprising of small farmers, women, youth, Indigenous People, rural populations and faith-based organisations located across CARICOM. CPDC also has strong networking partnerships with organisations of persons with disabilities, artisans, micro-entrepreneurs, human rights, and workers. Altogether it serves some thirty-three (33) regional, sub-regional and national (local) NGOs working at the grassroots level in economic, social, and cultural areas in the Caribbean. The Centre also has working relationships with many other NGOs and development partners across the region.

The organisation was mandated to work with NGOs and civil society to understand how policies affecting Caribbean people are made; to share information about policies and decision-making processes; to work to influence and bring change to the developmental process, and to support and to lobby for policies which improve the lives of Caribbean people. In fulfilling its mandate, the CPDC seeks to build the confidence and the ability of the Caribbean peoples to influence public policy. Our main work modalities are research, training, advocacy, publications, public education, and institutional strengthening. CPDC is officially recognised, both regionally and internationally, as the principal representative of Caribbean NGOs working with CARICOM/CARIFORUM, Commonwealth Foundation, and UN System Agencies.

CPDC, with support from the European Union (EU) and Inter American Foundation (IAF), is implementing a project to strengthen the enabling environment for Caribbean NGOs to provide essential developmental services to vulnerable communities by improving access to resources and increasing institutional capacity building opportunities post-COVID 19.

The project covers seven CARICOM countries; these countries include Antigua and Barbuda, Barbados, Dominica, Grenada, Saint Lucia, Saint Kitts and Nevis, Saint Vincent and Grenadines. The project will build the Non-Governmental Sector's capacity in the Caribbean by implementing several specific actions. These actions focus on strengthening NGOs' capacity to provide key development solutions to vulnerable groups affected by the COVID-19 pandemic. These actions include activities that promote NGO's institutional and organisational capabilities through several core thematic areas: - addressing the legislative environment through advocacy programming, promoting greater transparency within the sector, project management skills development, enhanced regional policy dialogue and improving access to small grants to name a few.

The project comes against a background of “the multidimensional impact of the COVID-19 pandemic on marginalised social sectors, requiring development support, critical CSO interventions to achieve sustainable development. However, the meaningful participation of CARIFORUM civil society has been stymied by two main factors; the lack of capacity to effectively engage in the COVID-19 policy process and the lack of an institutionalised mechanism to facilitate dialogue between civil society and CARIFORUM governments. This Action is therefore intended to implement activities to address these challenges.

KEY DEFINITIONS

Non-Governmental Organisations

A non-governmental organisation (NGO) is a not-for-profit or voluntary citizens’ group organised on a local, national, or international level to address issues supporting the public good. These organisations provide critical development services to vulnerable groups. NGOs also engage in advocacy and lobbying initiatives on behalf of their organisation, beneficiaries or the public good.

Vulnerable Groups

Vulnerable groups can be defined as populations with specific characteristics that make them at a higher risk of falling into poverty than others living in the same area. These groups are often less able to participate effectively and, in some cases, have little negotiating power to articulate their positions. Traditionally, these groups have been the victims of violations and accordingly require distinctive protection for the equal and effective enjoyment of their human rights. These groups include the elderly, Indigenous Populations (IPs), Persons with Disabilities (PWDs), At-risk children and youth, Individuals and households affected with HIV/AIDS, Women, Lesbian, Gay, Bisexual, Transgender and Intersex (LGBTI) Groups, Sex workers, Victims of sexual exploitation and/or abuse, Homeless and those excluded because of economic standing, migratory background, ethnicity, cultural beliefs.

Criteria for the provision of sub-grants for Non-Governmental Organisations

Proposed Actions should be designed to produce specific solutions to identified needs and constraints of vulnerable groups within the COVID-19 pandemic and priority areas.

1.2 CALL FOR PROPOSAL'S OBJECTIVES

Major Objective

- To strengthen the enabling environment for Caribbean NGOs working with the most vulnerable sectors impacted by the COVID-19 pandemic by improving access to financial resources and technical training and enhancing the voice of marginalised persons.

Specific Objectives:

- To provide social and/or economic support services to vulnerable groups impacted by the COVID-19 pandemic;
- To foster positive social change in the lives of vulnerable groups through the formulation and implementation of educational strategies focusing on job assistance, skill development and literacy; and
- To improve the organisational capacity of NGOs to deliver skills and employment development solutions to vulnerable groups.

Expected Outcomes:

- Enhanced service provision to vulnerable beneficiaries by NGOs to respond to challenges caused and/or exacerbated by the COVID-19 pandemic.
- Increased application of 'grassroots' development approaches to the challenges faced by vulnerable groups impacted by the COVID-19 pandemic.
- Enhanced ability to increase economic empowerment of vulnerable beneficiaries impacted by COVID-19 pandemic.

Proposals that do not meet these objectives will not be evaluated.

1.3 TYPES OF ACTION

The types of Action that are eligible and may be financed under this sub-grant directly contribute to achieving the purpose and objective of this Terms of Reference as indicated in Section 1.1 above. Actions to be funded must be in the form of a coherent and self-contained set of activities designed to achieve the specific objectives stated in Section 1.2 within the specific timeframe identified in the guidelines. The actions must have clear objectives, identified target groups, and must be conceived to produce specific, measurable results related to a particular issue or issues. Their justification must be tied to the organisation's ability to achieve some development action and long-term sustainability.

The applicant is responsible for identifying the appropriate set of activities necessary to achieve the Action's objectives.

The following types of Action are **eligible** [within the objectives of Section 1.2]:

- Promotion of educational empowerment and development of sustainable livelihood practices for marginalised groups;

- Targeting populations with limited resources with affordable, innovative strategies using community sensitive approaches that encourage entrepreneurship through skills acquisition;
- Limited institutional capacity building actions (ICTs, staff training, M&E systems formulation etc.).

Please note that this list is not meant to be exhaustive or prescriptive in any way.

All applicants are encouraged to include specific activities in their actions to increase livelihood opportunities for vulnerable groups in a COVID-19 context to achieve sustainable results. Applicants must foresee planning, human resources, budget and other appropriate measures to ensure results-oriented monitoring and management of the Action. Moreover, all applications should plan the necessary human resources and the appropriate budget to support the Action's final evaluation.

The following types of actions are **ineligible**:

- Actions concerned only or mainly with individual sponsorships for participation in workshops, seminars, conferences and congresses unless proven to be an integral part of the project outcome;
- Actions concerned only or mainly with individual scholarships for studies or training courses;
- Actions which consist exclusively or primarily in capital expenditure, e.g. land, buildings, equipment and vehicles, except in special circumstances;
- Actions which discriminate against individuals or groups of people on the grounds of their gender, sexual orientation, religious belief or lack of them, or their ethnic origin;
- Actions concerned only with one-off conference with no intended follow up. Conferences can only be funded if they form part of a wider range of activities to be implemented in the project's lifetime. For these purposes, preparatory activities for a conference and the publication of the proceeding of the conference do not, in themselves, constitute such 'wider activities';
- Actions supporting individual political parties; and
- Actions involving proselytism.

Value Added Elements

The following elements are considered as significant added value and should be taken into account as far as possible in designing the Action:

- Promotion of actions that build or strengthen the skill empowerment for vulnerable groups and have a positive impact on the environment;

- Promotion of innovation and implementation of best practices with the potential for further replication at a greater scale.

Only 'eligible costs' can be covered by a grant. The categories of costs that are eligible and non-eligible are indicated below. The budget is both a cost estimate and an overall ceiling for eligible costs.

At the contracting phase, the Contracting Authority decides whether to accept the proposed amounts or rates based on the applicant's provisional budget by analysing factual data of grants carried out by the applicant or of similar actions and by performing checks.

The total amount of financing based on simplified cost options that can be authorised by the Contracting Authority for any applicants individually **cannot exceed USD 12,115**.

Recommendations to award a grant are always subject to the conditions that the checks preceding the contract's signing do not reveal problems requiring changes to the budget (such as arithmetical errors, inaccuracies, unrealistic costs and ineligible costs). The checks may give rise to requests for clarification and may lead the Contracting Authority to impose modifications or reductions to address such mistakes or inaccuracies. It is not possible to increase the grant or the percentage of co-financing due to these corrections.

Eligible Direct Cost

Cash transfers between the Coordinator and/or the other Beneficiary(ies) and/or affiliated entity(ies) may not be considered as costs incurred;
 - II. costs incurred should be paid before the submission of the final reports. They may be paid afterwards, provided they are listed in the final report together with the estimated date of payment; and

Total Eligible Costs

The grant may not exceed 90% of the total eligible costs of the Action. Any grant requested under this Call for Proposals must fall under this stated maximum percentage of total eligible costs of the actions for NGO applicants established in seven CARIFORUM countries: Antigua and Barbuda, Barbados, Dominica, Grenada, Saint Lucia, Saint Kitts and Nevis, Saint Vincent and Grenadines.

All applications are required to identify the 10% required of the in-kind contributions in the submitted budget. In-kind contributions relate to the provision of goods or services to a Beneficiary(ies) or affiliated entity(ies) free of charge by a third party. As in-kind contributions do not involve any expenditure for a Beneficiary(ies) or affiliated entity (ies), they are not eligible costs.

In-kind contributions related to providing goods or services to a Beneficiary(ies) or affiliated entity(ies) are free of charge by a third party. As contributions in kind do not involve any expenditure for a Beneficiary(ies) or affiliated entity (ies), they are not eligible costs.

Contributions in kind may not be treated as co-financing. However, if the action description includes contributions in kind, the contributions have to be made.

Eligible Indirect Cost

The indirect costs incurred in carrying out the Action may be eligible for flat-rate funding, but the total must not exceed 15% of the estimated total eligible direct costs.

Indirect costs are eligible, provided that they do not include costs assigned to another budget heading in the standard grant contract. The applicant may be asked to justify the percentage requested before the contract is signed. However, once the flat rate has been fixed in the standard grant contract's special conditions, no supporting documents must be provided.

Suppose any of the applicants or affiliated entity(ies) receives an operating grant financed by the EU. In that case, it may not claim indirect costs on its incurred costs within the proposed budget for the Action.

2.3 Evaluation and Selection of Applications

Applications will be examined and evaluated by the Contracting Authority with the possible assistance of external assessors. All actions submitted by applicants will be assessed according to the following steps and criteria.

If the application's examination reveals that the proposed Action does not meet the eligibility criteria stated in Section 2.1, the application will be rejected on this sole basis.

STEP 1: OPENING & ADMINISTRATIVE CHECKS AND EVALUATION

The following will be assessed:

- Compliance with the submission deadline. If the deadline has not been met, the application will automatically be rejected.
- The Grant Application Form satisfies all the criteria specified in points 1-5 of the Proposal Checklist. If any of the requested information is missing or is incorrect, the application may be rejected on that sole basis, and the application will not be evaluated further.

The Applications that pass the first administrative check will be evaluated on the Proposed Action's relevance and design.

STEP 2: EVALUATION OF THE FULL APPLICATION

The grantees will be selected after meeting the minimum and maximum funding criteria. The specific funding allocation awarded will depend on each potential grantee's proposed budget from the grant evaluation process.

The quality of the applications, including the proposed budget and capacity of the applicants and affiliated entity(ies), will be evaluated using the evaluation criteria in the evaluation grid below. There are two types of evaluation criteria: selection and award criteria.

The selection criteria help to evaluate the applicant(s)'s operational capacity and the applicant's financial capacity to ensure that they:

- have stable and sufficient sources of finance to maintain their activity throughout the proposed Action and, where appropriate, to participate in its funding;
- have the management capacity, professional competencies and qualifications required to complete the proposed Action successfully. This also applies to any affiliated entity(ies) of the applicants.

The award criteria help evaluate the quality of the applications concerning the objectives and priorities and award grants to projects that maximise the Call for Proposals overall effectiveness. They help select applications that the Contracting Authority can be confident will comply with its objectives and priorities. They cover the relevance of the Action, its consistency with the objectives of the Call for Proposals, quality, expected impact, sustainability and cost-effectiveness.

Scoring:

The evaluation grid is divided into sections and subsections. Each subsection will be given a score between 1 and 5 as follows: 1=very poor; 2=poor; 3=adequate; 4=good; 5=very good.
